Public Sector Guide to Data + AI Summit

Driving Mission Success and Improving Citizen Outcomes With Data and AI

Welcome Public Sector customers and partners!

You're invited to open your world to new innovations at Data + AI Summit 2023. It's great to be back at the Moscone Center, San Francisco, for our biggest event to date. This year's conference is packed with best practices, industry use cases, hands-on demos and customer stories to help you make the most of the Databricks Lakehouse so you can achieve your mission.

We are thrilled to announce that Satya Nadella, CEO of Microsoft, and Eric Schmidt, former CEO of Google, will be our esteemed keynote speakers at Summit. Their presentations will focus on the latest innovations, impact and future of AI, ML and large language models (LLMs).

This Public Sector Guide to Data + AI Summit is designed to ensure you get the most from your experience. We have a stellar lineup of Public Sector sessions, many of which feature the Lakehouse journeys of our Databricks customers. We are also delivering a series of Public Sector demos to help you get started innovating with data, analytics and AI.

To kick off the conference, we're hosting a Public Sector Forum on Tuesday, June 27. This content-rich event will feature invited government data and AI leaders from the Department of Defense Chief Digital and AI Office, U.S. Army, Veterans Affairs, USPS, USCIS, California Department of Public Health (CDPH), Gainwell and Accenture.

Our esteemed speakers will share their perspectives on the biggest issues facing the Public Sector, including fraud, cyber threat detection, AI-driven government, homeland security and delivering better social services to citizens.

Take the time to network with industry experts. And be sure to check out the full agenda for the most up-to-date information.

We look forward to a compelling week of data, analytics and AI with you!

JUDE BOYLE
VP of Public Sector, Databricks

Data + AI Summit 2023

SAN FRANCISCO, JUNE 26-29, 2023

Join us live at the Moscone Center

Register Now

Data + AI Summit is the global event for the data community, where thousands of practitioners, leaders and visionaries come together to shape the future of data, analytics and AI. This guide outlines specific tracks relevant to the Public Sector that you may be interested in.

It's easy to register for Data + AI Summit — just sign up here.

Top reasons to join our Public Sector Forum and breakout sessions at Data + AI Summit:

1 Learn best practices from thought leaders who have already successfully achieved mission outcomes with data, analytics and AI

2 Gain insight on practical applications of advanced analytics in federal, state and local government agencies

3 See how the Lakehouse for Public Sector is changing the world — one byte at a time

4 Network with other data, analytics and AI leaders and practitioners at our Public Sector Forum featuring speakers from Veterans Affairs, U.S. Army, USPS, USCIS, Department of Defense Chief Digital and AI Office, CDPH, Gainwell and Accenture

5 Take a break and stop by our Public Sector Lounge to meet Databricks and our partners

6 View demos on Medicare claims analytics, entity resolution, SAS migration, automated secure data access and more

7 Attend deep-dive talks from the IFC, Department of State, Booz Allen, DoD Advana, Deloitte, U.S. Army Corps of Engineers, Maryland CRISP and Washington State Department of Health

8 Check out product and partner sessions on Data Governance, Access Control, Data Sharing, Data Mesh, Encryption and more

Create Your Own Experience

We have created three different Public Sector experiences so you can get the most from Data + AI Summit

1 PUBLIC SECTOR FORUM

Enjoy our industry-specific keynotes and panel discussions with thought leaders from some of the most innovative government agencies

2 BREAKOUT SESSIONS

Deep dive into specific topics and technical sessions with a leading expert from your field who has tackled the data, analytics and AI problems you are looking to solve

3 INTERACTIVE DEMOS

Join interactive demos for popular Public Sector use cases and AMA sessions with our data, analytics and AI technical experts

All Things Public Sector at Summit

Use this section to schedule and design your Summit experience around the Public Sector and our Industry Forum talks and live demos.
