

Healthcare and Life Sciences Guide to Data + AI Summit

SAN FRANCISCO, JUNE 26-29, 2023

Data and AI Collaboration Across the Healthcare Ecosystem

Welcome!

We're excited to have you join us at Data + AI Summit 2023 at the Moscone Center, San Francisco. This year's conference is packed with best practices, panel discussions, hands-on demos and customer stories to help you learn how data, analytics and AI are shaping the future of patient care and drug R&D.

We are thrilled to announce that Satya Nadella, CEO of Microsoft, and Eric Schmidt, former CEO of Google, will be our esteemed keynote speakers at Summit. Their presentations will focus on the latest innovations, impact and future of AI, ML and large language models (LLMs).

Discover how Lakehouse for Healthcare and Life Sciences helps organizations accelerate value with data, analytics and AI. By connecting the partner ecosystem with healthcare-specific solutions built on top of the Databricks Lakehouse Platform, we've seen organizations unlock tremendous value for their patients and customers. To continue that momentum, we are bringing together leaders from across the healthcare ecosystem to share their best practices at Summit.

This Healthcare and Life Sciences Guide to Data + AI Summit is designed to help you get the most from your experience. We've organized an amazing lineup of sessions with industry leaders, including Providence, Amgen, Labcorp, CRISP, Ontada, HealthVerity, Washington State Department of Health and many more. We are also featuring a series of interactive solution demos to help you get started innovating with AI.

Take the time to network with industry experts. And be sure to check out the full agenda for the most up-to-date information.

We look forward to a compelling week of data, analytics and AI with you!
